Profile

Motivated and goal-oriented web developer focused on modern web technologies. My aim is to contribute to the development of professional, clear, and scalable applications that provide real value to both users and businesses

Technical Skills

- **Frontend:** HTML, CSS, JavaScript, React, Next.js, TypeScript, Tailwind CSS
- **Backend:** Node.js, REST API
- **Databases:** MySQL, Firebase
- **Tools:** Git, GitHub

Work Experience

Actively seeking my first professional experience in web development. I am self-educating, working on personal projects, and continuously improving my technical skills

Education

- Secondary Industrial School – IT specialization
- Technical University of Liberec

Projects

Development of personal web applications in React and Next.js with a focus on user experience (UX), application structure, and data handling

Languages

- Czech – Native
- English – Advanced
